

NSF Broader Impacts Support Available – NIU STEAM

BI will benefit society and contribute to the achievement of specific, desired societal outcomes.

Dear Faculty,

The Center for P20 Engagement has outreach and engagement supports for you as you create and deliver your Broader Impacts goals. In cooperation with Sponsored Projects Administration, our assistance is available at **NO COST TO YOU OR THE GRANT.**

Your Choice

Well-established NIU STEAM programming can be used as drag and drop BI.

We reach up to 50,000 people annually including 100 NIU Faculty, 1,500 NIU students, K-12 teachers and/or community members near and far.

You can share your research, engage the public and increase scientific literacy through our established, time-tested programs.

Advantages — little effort, uncomplicated, wide reach across communities, engages all ages

Innovative BI programming can be created to support your vision.

You can involve underrepresented people, engage preschoolers through adults or reach the general community.

Would you like to improve STEM education or educator development? What is your goal? We'll collaborate with you to achieve your vision.

Current Experiences include:

- Online, non credit course for high school teachers that gives NIU badges as they complete the modules.
- Camp and afterschool programming for underrepresented youth.
- Mentoring an NIU student team creating a 125th Anniversary app for community members to use.
- Series of STEM Cafes focusing on cannabis for community understanding and awareness.

Advantages — faculty can focus on outcomes and not logistics, faculty benefit from P-20 Center relationships with schools, faculty can measure impact of their outreach

Connect to NIU STEAM to help with your broader impact objectives.
